

5 Super Easy Steps to **POTTY TRAIN** YOUR **DOG**

Having pups at home is a challenge when it comes to potty training.

Some super easy steps to potty train your dog.

1 Have a proper feeding routine for your pup.

2 Place a cloth or a paper somewhere around the house.

3 Whenever your pup wants to pee or poop, carry your dog and put them on the paper or cloth.

4 Reward them with treats and appreciation once they finish.

5 Monitor your pet at least for a week, until they make this a habit.

Once this becomes a habit, make sure that you don't leave a paper or clothes unattended on the floor. This may make the dog pooping on any paper or clothes lying around.
