

DON'T TOUCH COMMAND

Take your dog with a few treats that he/she likes

Go to a silent place and put one on the floor and the rest in your pocket.

Your dog will want to eat the treat and come for it. Say "Don't touch" in a firm voice.

If your dog tries to get the treat, cover it with your hand and repeat "Don't touch"

Once the dog stops reaching it, praise and give your dog the treat from your pocket.

Repeat this until it becomes a Practice.
